Summary:

Highly motivated **Full Stack Developer** with a strong background in **HTML, CSS, JavaScript, React, Node.js**, and **MongoDB**. Experienced in developing and delivering high-quality web applications. Skilled in utilizing best code practices to create efficient and user-friendly solutions.

I am eager to leverage my skills and continuously learn while contributing to innovative projects.

Experience:

- **06/2022 – Present:** Freelancer **Frontend** Developer, Electereon company
 - Collaborated with Electereon on front-end development project, focusing on delivering high-quality and user-friendly web application.
 - Developed responsive and visually appealing interfaces using **HTML, CSS, JavaScript, React**, and **Typescript**, ensuring seamless user experiences.
 - Implemented front-end functionalities and interactions, incorporating best practices in code structure, optimization, and browser compatibility.

Hands-on Projects:

- **Fullstack Developer**, Electereon Company, 12/2021 – 02/2022:
 - Developing an app for managing wireless electric car charging while driving using React, JavaScript, HTML, and CSS.
 - Implemented real-time data updates and user authentication to ensure secure access and smooth user experience.
- **Social Media Project**, 2021:
 - Created a new social media network with a user-friendly interface using **React, Node.js, MongoDB, Redux**, and **MaterialUI**.
 - Implemented features such as user authentication, posting, liking, and commenting functionalities to enhance user engagement and interaction.
- **Coding Hackathon**, Appleseeds in partnership with SAP Company:
 - Developed a LinkedIn crawler using **Node.js** and **Puppeteer** to search companies in Stealth Mode and identify CEOs or co-founders.
 - Extracted relevant information such as company names, job titles, and contact details to provide valuable insights for business networking.

Education:

- **Cybersecurity Analyst**, iNT College - Institute of Innovation & Technology, 06/2022 –02/2023.
- **Full Stack Developer** Bootcamp, Appleseeds, 2021: Intensive 6-month training program focused on **HTML, CSS, JavaScript, React, NodeJs**, and **MongoDB**.
- **B.A. Management and Economics**, Tel-Hai College, 2005
- **P.E. Computing Science**, Tel-Hai College, 2001.

Technical Skills:

- Front-End: **HTML5, CSS3, JavaScript, Reactjs, Typescript, MUI (Material-UI), Storybook**.
- Back-End: **Node.js, Express**.
- Databases: **MongoDB**.
- Version Control Systems: **Git**.

Languages:

English - very good | **Hebrew** - Fluent | **Arabic** - Native

Military service: Combat soldier at Golani unit.
