Summary:

Highly motivated Full Stack Developer with a strong background in HTML, CSS, JavaScript, React, Node.js, and MongoDB. Experienced in developing and delivering high-quality web applications. Skilled in utilizing best code practices to create efficient and user-friendly solutions.

Graduated from iNT College - Institute of Innovation & Technology as a Cybersecurity Analyst and completed an intensive Full Stack Developer Bootcamp at Appleseeds, further enhancing my expertise in web development.

Eager to leverage my skills and continuously learn while contributing to innovative projects.

Education:

- Cybersecurity Analyst, iNT College - Institute of Innovation & Technology, 06/2022 – 02/2023: Windows Operating System-MCSA, Active Directory, DHCP, Bash Scripting, Wireshark, VMWare, Linux, Network Protocols, ARP, Group policy, DNS, EFS, CA, Digital certificates, PT (Penetration Tests), CheckPoint Firewall.
- Full Stack Developer Bootcamp, Appleseeds, 2021: Intensive 6-month training program focused on HTML, CSS, JavaScript, React, NodeJs, and MongoDB.
- B.A. Management and Economics, Tel-Hai College, 2005
- P.E. Computing Science, Tel-Hai College, 2001

Hands-on Projects:

- Fullstack Developer, Electereon Company, 12/2021 – 02/2022:
  - Developing an app for managing wireless electric car charging while driving using React, JavaScript, HTML, and CSS.
  - Implemented real-time data updates and user authentication to ensure secure access and smooth user experience.
- Coding Hackathon, Appleseeds in partnership with SAP Company:
  - Developed a LinkedIn crawler using Node.js and Puppeteer to search companies in Stealth Mode and identify CEOs or co-founders.
  - Extracted relevant information such as company names, job titles, and contact details to provide valuable insights for business networking.
- Social Media Project, 2021:
  - Created a new social media network with a user-friendly interface using React, Node.js, MongoDB, Redux, and MaterialUI.
  - Implemented features such as user authentication, posting, liking, and commenting functionalities to enhance user engagement and interaction.

Experience:

- Freelancer Frontend Developer, Electereon, 06/2022 – Present:
  - Collaborated with Electereon on multiple front-end development projects, focusing on delivering high-quality and user-friendly web applications.
  - Developed responsive and visually appealing interfaces using HTML, CSS, JavaScript, react js , and Typescript, ensuring seamless user experiences across different devices.
  - Implemented front-end functionalities and interactions, incorporating best practices in code structure, optimization, and browser compatibility.
  - Worked closely with the design team to translate wireframes and mockups into interactive and intuitive user interfaces.

Technical Skills:

- Front-End: HTML5, CSS3, JavaScript (vanilla), TypeScript .
- Back-End: Node.js, Express .
- Databases: MongoDB, SQL
- Additional Skills: Familiarity with Python .
- Problem Solving and Analytical Thinking: Demonstrated ability to analyze complex problems and devise effective solutions.
